“Kathleen Gubitosi has a welcoming, encouraging style. The information that was shared was complete and very useful. So many times, after a course or lessons I feel as if "something was left out" or "there's a magic ingredient that wasn't shared". THIS course was complete. THIS course was given with a full heart and a willingness to share. In each video, there was a "nugget" to hold onto and propel me forward.”

~ Elissa Reichstein, Music Educator
